PENSACOLA, MARCH 16, 1900.

PRECINCT DELEGATES.

Representative conservative democrats have endorsed the following ticket for delegates from the city precincts to the Democratic County Convention to be held at Fowlton, April 14 and ask that they be given a hearty support by the voters:
Precinct 12—C. H. Gingles, David Sheehan, Wm. Bazzell, J. D. Maxwell, and T. F. Wright.
Precinct 13—W. A. Blount, Thos. Hannah, John Christie, J. Geo. White and W. T. Duncan.
Precinct 14—Geo. Brown, Jos. I. Johnson, J. S. McLaughlin, John Pfeiffer and J. E. Baars.
Precinct 15—E. H. Putnam, John West, Wm. Bennett, J. E. Abercrombie and W. A. Johnson.

A PRESS dispatch from Cincinnati states that the British government orders all of its flags from a Cincinnati factory, an order for half a million of different kinds having recently been received there. This probably accounts, in part, for the exceedingly friendly attitude of that government towards the United States.

The almost universal disposition to refrain from interference with Great Britain in her contest with the South African republics—so called—indicates their utter disestablishment, and the supremacy of England in South Africa. History will verify the maxim that governments which deserve to be perpetuated cannot be destroyed.

The party friends of Senator Depew of New York are doubtless busy denying a story recently published in the New York Press to the effect that he was bought off by Cornelius Vanderbilt from reaching after the presidential nomination that was captured by Gen. Harrison, the price being an addition of \$10,000 to his salary of \$50,000 as president of the N. Y. Central.

The super-loyal republican newspapers in the North are keeping very quiet about the latest lynching in the South. It occurred at Hernando, Miss., and was peculiar because no white persons were engaged in it, which may account for the silence of the northern press. A band of negroes armed with Winchesters visited the dwelling of a negro who had assaulted a little negro girl, and perforated their victim with sundry bullets.

BECAUSE the government reports on the present corn crop shows a visible supply of 14,000,000 bushels less than at this time last year, the Cudahys of Chicago undertook to engineer a corner, and now control 22,000,000 bushels, on which, at the increased price caused by their corner, they have profits already in sight amounting to \$1,200,000, with predictions that the price will go to 40 cents. Which is the worst, a trust or a corner?

More Judges.

Several of the state newspapers—notably the Gainesville Sun, followed by the Tampa Herald, the Madison Recorder and the Jacksonville News—have given considerable attention to the subject of vexatious delays in the administration of justice in the courts of Florida by reason of congested dockets, which overworked judges contend with in vain.

With respect to the circuit courts, the evils are confined to one or two, and the remedy that has been suggested consists of enlarging the number of circuits, so that in those where the business is too heavy it may be divided. This is quite practicable, but will require a change in the constitution, which must pursue the usual course and will take some time. If it is to be done, the first steps should be taken when the legislature next meets.

Concerning the supreme court, the same difficulty exists, and more than one effort has been made to remedy the trouble. Doubtless the first steps looking to another change in the constitution would have been taken at the last session, but for the declaration of a member of the court that no legislation was necessary; and the effect of the change providing that cases might be disposed of in the discretion of the court, "per curiam" without the filing of opinions, has resulted in somewhat reducing the number of cases on the docket. Notwithstanding this, the fact is evident that relief is needed, and there seems to have been suggested no better method than that advocated by the Gainesville Sun and approved by the Jacksonville News, to amend the constitution so as to increase the number of supreme justices to five, and confer upon the legislature the power to increase the number of judicial circuits in its discretion. Both of these excellent journals argue that the number of judges and justices is the same as it was thirty years ago, although the population has more than doubled, and the aggregate value of taxable property has increased four-fold during that period.

Billiousness and constipation are seeds out of which spring many of the serious diseases that afflict the human body. Sound judgment would demand the immediate removal of this condition before it develops something more troublesome and difficult to cure. PRICKLY ASH BITTERS is a reliable cure for constipation and disorders of similar character. It not only thoroughly empties and purifies the bowels, but strengthens the bowel channels and regulates the liver and stomach, hence it performs a radical cure. Sold by Hannah Bros.

A MOBILE OPINION.

On the speedy Conviction of Emanuel Richardson.

The Mobile Register of yesterday says:

A record comes to the front with a record for swift action in criminal cases. On Tuesday a negro named Emanuel Richardson was arrested here on the charge of burglary, and when taken before Chief Soost he confessed and laid bare the facts connected with the charge. Richardson asked the advice of the chief as to what he should do when he returned to Pensacola. The chief told him to tell the truth, that nobody ever lost anything yet by following the straight and narrow path, and the best thing he could do when he faced the Pensacola court was to own up, and that he would no doubt be let down light.

The negro was returned to Pensacola yesterday morning and some time later the chief received the following startling telegram from the officer who took him back:

"Five minutes after our arrival our man got ten years." It is evident that Richardson followed the chief's advice. Anyhow, he never "lost" anything; two years was what he expected and he got ten.

Boating after eating, indigestion, flatulence or water brash, may be quickly corrected through the use of PRICKLY ASH BITTERS. It strengthens digestion, cleanses and regulates the bowels. Sold by Hannah Bros.

First Anniversary and Banquet Last Night.

At the mystic hour of midnight, last night, the members of Assembly No. 60, National Association of Theatrical Stage Employees, and invited guests, assembled at the New Cordova restaurant to celebrate the first anniversary of their organization. It was a happy gathering and every man present enjoyed the feast and frolic immensely.

Charles M. Coston, Esq., was orator of the evening and his address was eloquent. The feast which followed was bountiful, the viands were well cooked and well served and everybody voted A. E. Baker an expert and up-to-date caterer.

"Safe blind, safe find." Fortify yourself by taking Hood's Sarsaparilla now and be sure of good health for months to come.

The Police Court.

Only five cases were disposed of in Mayor Hilliard's court this morning.

Robert Gore and Gabe Fagen, suspicious characters, were turned over to the county authorities.

Fred Nelson, committing nuisance, fined \$6.

Robert King, cursing and abusing, \$10.

Frank Ginley, drunk and disorderly, \$7.50.

Dr. Ball's Cough Syrup never disappoints those who use it for asthmatic coughs, colds and irritations of the throat and lungs. It stands unrivaled as a remedy for throat and lung diseases, sold by druggists for 25cts.

Criminal Court.

In the criminal court yesterday afternoon the case against George McDonald, charged with breaking and entering, was not pressed. In the case of trespass against the same defendant he pleaded guilty and was sentenced to 30 days in jail and to pay to the prosecuting witness the damage done to property.

Peter Carl Henry Roth was granted naturalization papers.

This morning the trial of Robert Leonard, charged with vagrancy, resulted in a verdict of not guilty.

Camuello Anastasio, charged in two cases of enticing seamen, was acquitted in both.

Executive Committee Meeting.

A meeting of the Democratic Executive Committee of Escambia county is hereby called for 6:30 p. m. Monday, March 19, at the office of County Judge T. R. McCullagh for the transaction of such business as may come before it.

By order of
C. B. PARKHILL, Chairman.
DAN MURPHY, Secretary.

Sold by all druggists. 25 cents.

LABOR TROUBLES
AMICABLY ADJUSTED

Timber at Ferry Pass and White River Released.

Timber Will Now Come Down as Needed and all Knights of Labor Interested Will Resume Work Both Here in the Bay and at Ferry Pass.

The labor troubles existing at Ferry Pass and White river, where all timber has been tied up for some time, were amicably adjusted to-day and business will be resumed as before. Timber will come down as needed and the work of loading it into vessels here will go merrily on. The differences were adjusted at 12:30 to-day at a meeting of Messrs. W. S. Keyser, H. Baars and Wm. H. Knowles, representing the timber shippers, and District Master Workman Arthur McConnell and Master Workman George White of Delta Assembly, representing the Knights of Labor.

The details of the agreement have not been given out by the interested parties for publication, but every point was satisfactorily adjusted.

Pensacola is to be congratulated upon this settlement of the existing differences, for it looked in the beginning like a general strike of all Knights of Labor in the district interested in the manufacture or handling of timber would be the result.

The labor leaders demonstrated in this difficulty that they are wise, conservative, able men, and that they have the best interests of the port at heart. It is sincerely hoped by all that no further differences may arise and that the business of the port may proceed in a smooth, uninterrupted manner.

United Charties.

A meeting of those interested in organizing a United Charties association was held at Clutter's music hall yesterday afternoon, presided over by Temporary Chairman J. M. Dannelly. After discussion of details, a committee on constitution and by-laws was appointed as follows: Rev. P. H. Whaley, Rev. J. M. Dannelly, Rev. W. E. McIlwaine, Rev. Jean Vane, Rev. I. E. Wagenheim. This committee was authorized to nominate permanent officers. The next meeting will be held at the Chamber of Commerce at 4 o'clock Tuesday afternoon.

Weather Conditions.

The storm has moved from Western Florida to the New York coast, accompanied by high winds and heavy precipitation, and followed by a cold wave.

The temperature is below zero in the upper portions of the lake region, Mississippi and Missouri valleys, and all stations report freezing temperature, or below, with the exception of Augusta, Corpus Christi, Galveston, Jacksonville, Key West, Macon, Mobile, Pensacola and New Orleans.

Frost occurred southward this morning to Pensacola, and this ice, about one-sixteenth of an inch in thickness was observed.

From 8 a. m. Thursday to 8 a. m. to-day, the temperature fell 29 degrees in Pensacola. At New Orleans it fell 26 degrees, and Montgomery and Macon, 18 degrees. The cold weather will continue to-night and a heavy frost will probably occur Saturday morning.

Gardens and fruit trees should be given the necessary protection.

The following heavy precipitation, in inches, occurred during the past 24 hours: Augusta, 1.21; Jacksonville, 2.66; Macon, 1.18; New York, 1.60; and Washington, 1.35.

M. J. WRIGHT, JR.,
Observer.

We have saved many doctor bills since we began using Chamberlain's Cough Remedy in our home. We keep a bottle open all the time and whenever any of my family or myself begin to catch cold we begin to use the Cough Remedy, and as a result we never have to send away for a doctor and incur a large doctor bill, for Chamberlain's Cough Remedy never fails to cure. It is certainly a medicine of great merit and worth.—D. S. MEARNS, General Merchant and Farmer, Mattie, Bedford county, Pa. For sale by Hannah Bros., 21 South Palafox street.

SELMA-PENSACOLA.

Commencing Monday, March 19, trains between Pensacola and Selma will be run on following schedule:

Leave Pensacola, 12:45 noon; arrive Selma, 8:45 p. m.
Leave Selma, 8:00 a. m.; arrive Pensacola, 4:15 p. m.
Daily, except Sunday.

M'MILLAN'S BUDGET.

March 10th being "Farmers' day" at the Florida Chautauqua I joined the excursion of 18 carloads of "live stock."

There we learned from the experimental station that Florida is unequalled for grass; that fancy beef can be produced cheaper here than in any region of the Northwest. Casava and velvet beans are important discoveries in these new "Klondyke fields" at home.

"The time is past for success in agriculture by muscular power without the plentiful use of brains." Whether the brains can be produced here successfully is the interesting experiment—open to us all.

Those Chautauquans are so brainy that they can almost teach you how to run water up hill and succeed in farming a desert.

Our "One Hour in Japan" with Prof. Stockbridge was just long enough for the first visit among a people who invite you to remove your shoes before entering their houses—then to sit on your heels while eating from their cushioned floors, which are their only beds. Never a picture or ornament visible in their houses—nor any partitions used except as arranged by movable screens to suit the occasion. They never use the green tea which they color with Prussian blue for the British and American trade.

They subsist mainly on rice and tea. After steeping the uncolored tea over 10 or 12 times they dry and ship the "fine tea" grounds to us.

Travelers are conveyed over their beautiful roads in carts, resembling our baby carriages, by Japanese power.

Mr. Stoddard r. led us through his magic views of Cuba in 15 minutes—barely stopping long enough at the Havana market to see the dairymen milking their cows at the gates of their patrons at 20 cents per quart.

The chief traffic seemed to be in lottery tickets. Had we tarried in Cuba longer Pensacola might have quarantined against our return home.

As our train from Pensacola passed up the Escambia beach—with the outcroppings of exhaustless fire-clay strata above the track—and coral less banks of Santa Rosa's sn white sands glistening across to water to the southward, I wondered which would prove the richer investment—Pensacola glass works or Escambia mud bakeries.

Those who survive till the noonday of the dawning century will find the wooden commerce of Pensacola rotted away—the saw and planing mills supplanted by sand factories and clay mills—fire companies disbanded and insurance agents starving.

When the substitution of iron, glass and pottery for wood comes in earnest, there will be a re-action and decline in the market for common lumber. It will be unlawful to use it in buildings, bridges or walks.

The orange business has proven a failure in West Florida—the blight has impaired our fruit prospects generally—but no drouth, frost or blight has ever deteriorated the high standard of our glass-sand, nor impaired the fine clay—which is a certain "crop," with a sure market, at booming prices.

THOS. MCMILLAN.

The Christian.

A large and fashionable audience witnessed the presentation of "The Christian" at the opera house last night. Every part was in capable hands and everybody was well pleased.

Don't neglect to attend the Alba Haywood entertainment at Clutter's music hall Monday night, secure seats at Clutter's you will be pleased and amused and at the same time true charity will be assisted, B. P. O. Elks charity fund.

MOUNTAIN MINT TONIC.

One year ago to-day I placed on the market my preparation—Mountain Mint Tonic. I advertised in "THE DAILY NEWS" for a period of six months. Prior to this, the medicine was unknown to the public. Up to date, 4266 bottles have been sold. The Tonic has made friends wherever it has gone, and practically no one has complained that it is not exactly as represented.

Recently I have made a valuable addition to its composition enhancing its value very much. This has been done at great expense to me, while the price to the public remains the same, namely: One dollar per bottle, six bottles for five dollars.

The addition spoken of above is directed especially to the relief of indigestion in its varied forms.

With proper diet the Tonic will cure the worst forms of this tormenting affliction with its hundreds of obscure symptoms, often referred to other organs than the stomach.

By this addition, its virtues as a general tonic and invigorator and blood purifier, are not impaired in the least. No better medicine can be found for the relief of those diseases that are so prevalent in the spring months.

I take this opportunity to thank my friends for the support they have given this Tonic, and promise that Mountain Mint Tonic, as improved, will give still better satisfaction.
